Dear Member:

In spite of rigid economies and the curtailment of activities, Carnegie Institute had an operational deficit for the year of 1962. This was due to the constantly rising costs with which you are very familiar; and as you know, we have no admission charge to enter the building.

## FINANCIAL FORECAST

9/3/63

Unreserved Cash Balance	\$ 5.75
Dues believed to be collectable	<u>14.00</u>
Probable Operating Funds	\$19.75

### Probable Commitments

Bill for printing Programs	\$ 10.00(Est.)	
Bill for post cards for meeting notices (47x10x.04)	18.80	
Bill for labor of printing post cards	20.00(Est.)	
(Invoices for last 2 years, when postage was lower, for above two items, were \$44 & \$41)		
Postage for remainder of year (\$9/3 mos. = x/9 mos.)	27.00(Est.)	
Letters and Cards for Banquet	4.50	
Carnegie Institute	<u>10.00</u>	
Total Probable Commitments		<u>90.30</u>
	<u>DEFICIT</u>	<u>\$70.55</u>

Use advance dues reserve? (Only \$22.00. Merely postpones problems until next year. Deficit financing unsound).

Hope for an NSM donation? (Only \$15.00 probably. Check's for that amount were received in last 2 years).

Increase dues? (Would require Constitutional amendment and break a tradition of 86 years. This process, too, would raise costs).

Plan on profiting from Banquet? (Seems best plan. There was a \$21.50 profit last year, a \$68.00 loss the year before. Cut out tips!)

Solicit Donations? (Believe this could be done by word of mouth and personal contact). (Coin World?, Numismatist?, Members?)

Question: Should WPHS Dues be Increased  
from \$1.00 to \$2.00 per year per member?

I Observations from Financial Analyses:

1. Expenses are increasing. The increase in postage alone, you will recall, was \$23.
2. We can hope for, but not depend on, donations as in the past. (In any event they have decreased in recent years)
3. The prepayment of dues in past years have helped offset expenditures in those years but now present a liability, while expenses go on.
4. The estimates made may be high - or low.
5. Any "assessment" to offset the possible deficit would probably be paid by active members who <sup>regularly</sup> attend meetings - a low percentage of the membership.
6. In the year '61-62 expenses averaged \$2.93 per member; last year \$1.27; this year estimate \$3.17.

II Observations from Analysis of Members:

1. The average turnout at <sup>the last 23</sup> meetings has been 13 with a high of 19 and a low of 4. These 13, including the 4 officers and 3 committee chairmen, usually take the brunt of financial obligations in terms of donated time, services, and contributions money.
2. Of the 54 "active members" on the roll,
  - 13 are delinquent in dues payment for more than 1 year.
  - 41
  - 3 are honorary members exempt from dues payment.
  - 37 members pay the expenses of 54. (In addition to preparing papers, donating time, services and money)

III Other Observations:

1. Donations have been timely and generous in the past. The future?
2. A deficit of \$17.79, if realistic, certainly isn't anything to worry about at this time.
3. No doubt this organization has weathered much more serious financial storms than this in the past - without raising dues.

#### IV Advantages of raising the dues:

1. A financially sound organization
2. No begging required
3. Everyone does his financial share
4. Dues per member brought more in line with cost per member.

#### V Disadvantages:

1. Would break an 85 year tradition.
2. Assessments, if necessary, as in the past, may suffice.
3. Notification would further raise expenditures.
4. Could discourage membership.
5. Feeling might be fostered that we are trying to build a surplus.

#### VI My Conclusions:

Not now. However I think the members (those who attend meetings) should be made aware of the situation and their advice sought.

- In the meantime:
- 1) Suspend delinquents in accordance with bylaws.  
(Get them off mailing list)
  - 2) Concentrate on good new members.  
(Stability for the future)
  - 3) Prepare to make a little money on the Banquet.  
(Hold costs down, Luck take up.)

Dear Glenn,

Peggy Byrne has advised me that one of the Society gold medals is still available, so I would like to have it. Since I have ordered the silver and copper medals, I may as well complete the cycle and order the bronze also so I am enclosing my check for \$125<sup>00</sup>. If this is not correct, please advise.

Best wishes for a happy holiday season.

[illegible]

It has been suggested that additional copies of the W P N S Commemorative Medallion be struck if there is enough demand.

Any restrikes would be so identified on their edges. Since it is not desirable to maintain a sizeable stock for future purchase by members, and since the initial order must be supported by cash, this will probably be your only chance to secure copies.

To do so, please:

- (1) Sign on the opposite sheet in the appropriate space, and
- (2) Provide the Treasurer (Glenn Mooney) with the funds.

Note: Prices shown are slightly higher than cost - the difference will be used to underwrite the cost of a very limited number of gold copies for Society award purposes. See Glenn Mooney on this point. Excess money, if any, will go into the Society's special fund.

Signatures on this sheet without cash to Treasurer cannot be honored.

WILLIAM TREES LOUTH  
PRESIDENT

October 30, 1963

Mr. Glenn A. Mooney  
Secretary and Treasurer  
Western Pennsylvania Numismatic Society  
521 Penn Vista Drive  
Pittsburgh 35, Pennsylvania

Dear Mr. Mooney:

It was a pleasure to talk with you at length on the phone yesterday. Please immediately convey to the members of the Western Pennsylvania Numismatic Society that the Medalllic Art Company is not desirous of taking an arbitrary viewpoint or disturbing in any way the fine relationship that we have had for so many years with them. Actually, our position is one that has been dictated over many years of experience and a policy that has been developed particularly to protect the ethical standards that numismatists have come to admire in the Medalllic Art Company.

Our records show that the original order was placed in October of 1928, and I am sending you a photostatic copy of the acknowledgment of the order. Please note the statement at the bottom of this acknowledgment that the "charges made for dies, moulds, models, etc. do not convey the right to remove them from our vaults". I am sending you a copy of our present acknowledgment and you will note a similar statement protecting our right to retain the dies in our vaults.

The reasons that we have maintained this policy are as follows:

First, your group should appreciate that the Medalllic Art Company is not in the business of making dies. If all we did was to make dies, I am sure many people would come here to have their die work done, for we have the equipment and machinery and years of experience that make it possible for us to execute what we consider the finest dies available anywhere in this country. The charges that we make are a service charge covering only our labor and necessary expense. The only place we can make a profit is from the sale of the actual pieces themselves.

Secondly, once the dies leave our premises, we cannot be responsible for them, and while they do remain here, we accept full responsibility for breakage, etc.

October 30, 1963

Mr. Glenn A. Mooney  
Western Pennsylvania Numismatic Society

Thirdly, with so much discussion these days about copies and strikes, the Medallic Art Company long ago established a policy of maintaining the dies so that we can strictly account for every medallic piece prepared and thus assure the general public and numismatists that unauthorized copies are not being prepared. This same principle would apply to one of the commemorative medals that we prepare for the states of Alaska or Hawaii. Even though these dies were prepared for this specific instance, if they came back to us in five years' time and asked us to prepare additional copies, we would refuse to do so. The argument that these dies were prepared for them is in our opinion not a valid argument to at a later date strike unauthorized replicas. We would accept authorization to strike the Western Pennsylvania Numismatic Society medals only upon written authorization from an appropriate member of that organization.

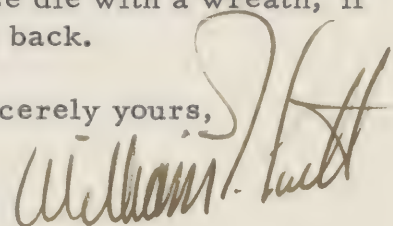

Fourth, as explained to you, we also have an obligation to the sculptors and designers of this country. Again, if we release dies, restrikes and replicas made by different manufacturers would never be the same as the original pieces and there would be a variation in the quality of the reproductions.

I wish to further state that the last correspondence we have had with the Western Pennsylvania Numismatic Society was in 1928. I think that it is to our credit that you can write us some thirty-five years later and find that we still have the dies. This in itself is reason why the dies should be left in the vaults of Medallic Art where they will be properly cared for, and we are willing to listen to any reasonable proposal and will await your further advice.

I note in checking the quotations that have been given you that we have quoted for one piece in bronze at \$7.50, ten at \$4 each, and twenty-five at \$3.30 each.

I do not find any record of these particular pieces being quoted in silver. If this medallion were required in silver, we would furnish these at \$10 each if they are ordered at the same time that we would strike the bronze pieces. We are also quite willing to furnish a stock reverse die with a wreath, if you wish to utilize this instead of a perfectly plain back.

Sincerely yours,

October 25, 1963

Mr. William Trees Louth, President  
Medallic Art Company  
325 East 45th Street  
New York 17, New York

Dear Mr. Louth:

The Die Committee of the Western Pennsylvania Numismatic Society wishes to reply to your letter of October 22nd to Mr. G.A. Mooney, Society Secretary-Treasurer.

While the Society appreciates the company's position as expressed in your letter, it is the Society's feeling that its reasons for desiring possession of the unaltered dies are its own; the prerogative of authorizing copies (if that is desired) is its own; and explanation of its intentions as a condition of possession of what it feels is its own property, is a violation of its rights.

You are therefore again requested to ship the dies unaltered, as requested in Mr. Mooney's letter.

The members feel that the technicality of ownership which they feel was paid for 35 years ago, is far outweighed by the Society's rights and desires in the matter. When one considers the number of people incensed over the subject, their widespread influence, and the heritage of 89 years in Numismatics, it would appear that their desire should be unquestionably recognized.

We feel sure that neither the Society nor Medallic Art would gain by a dispute, publicity, or litigation, and we feel that both would benefit by continuation of the cordial relations which have existed over the years.

## WPNS Executive Group paying for Medallion Dies

For what it may be worth to the numismatic fraternity the Western Pennsylvania Numismatic Society cautions clubs, societies and businesses that they may be defrauded of the property they have paid for in refusal possession of their unaltered dies by the company paid to produce them.

*See* The WPNS in 1922 paid ~~the Medallion Company of New York City~~ <sup>a company</sup> to have die prepared for the issuance of a medallion commemorating the Society's fiftieth year of existence. At the company's request and with the Society's concurrence the dies were held for reshaping by ~~the Medallion Co. the~~

The Society now ~~wants~~ <sup>desires</sup> possession of the dies. It was advised by the company that a "policy" had been established <sup>that</sup> the dies would be returned only if they were marked in some way or other. The Society does not want the dies altered in any way, ~~and~~ so advised the company, and requested possession.

The company answered as follows: "A any numismatic group will appreciate, the very reason we refuse to release dies without marking them in some way or other, is that in this way unauthorized copies are prevented from being released. All of the various groups with whom we have dealt have accepted this policy, and I am afraid we cannot release these dies unless you agree to this procedure. If perhaps you could explain to us why the Society objects to this usual procedure, we will be willing to consider otherwise."

In the Society's opinion, their reasons for desiring possession of their own <sup>unaltered</sup> property are their own; the prerogative of authorizing copies (if that were desired) is its own and not the company's; and explanation of its intentions as a condition of possession of its own property is a violation of its rights.

Legal action by the Society is contemplated.

Dear Mr. Mooney:

In the absence of Mr. Heim, may I reply to your recent letter. As any numismatic group will appreciate, the very reason that we refuse to release dies without marking them in some way or other, is that in this way unauthorized copies are prevented from being released. New York 17, New York

Dear Mr. Heim:

In accordance with our telephone conversation yesterday, I reported Medallic Art's preferences with respect to the dies of the Western Pennsylvania Numismatic Society's Commemorative Medallion.

It is the desire of the group however to obtain the dies as planned and without any alteration, disfigurement, distortion, or defacing, (line or otherwise) of any nature. In taking this action, the Society of course releases Medallic Arts of any subsequent responsibility.

I have therefore been directed to request that shipment be made to me at the above address. You may either bill the Society for the shipment charges or send them collect, whichever is most convenient to you.

Your cooperation is appreciated.

Sincerely yours

He said he would check the paper and have answers this afternoon. Said our release would be about \$25.-.

Suggests we get dies & have Matthews strike them  
(Gretis). He will find out what Silver Planchets  
cost & will advise me.

- Talked to Sloss. He feels silver. Probably would
